THE MINIBAR

All hotels are concerned with the mini-bar issue. Does the mini-bar need to be emptied, should the selection of refreshments be downsized or completely replaced with a new concept such as a kiosk? While mini-bars are a nice service for hotel guests, they are also expensive and time-consuming for hotel owners.

That is why hotel experts have developed an alternative: the Minibarbox. Minibarbox comes in a nice design, with a selection of refreshments that can be sold at reception or placed in hotel rooms.
